Chauncey Leake could be seen every morning, stooping to plant flowers, weed, or pick up litter on Parnassus Avenue.

A day of planting flowers and greenery on campus will be held Tuesday, June 2, in memory of Chauncey Leake, the distinguished scientist and teacher, who died in 1978 after devoting a half century of service to UCSF.

Ceremonies will begin on the steps of the Medical Sciences building at 11:30 a.m. followed by: a march to 5th and Judah, with UCSF's own marching band, 11:45; unveiling of the first campus boundary sign and planting flowers, noon; a march to a surprise dedication, 12:15 p.m.; Child Care Center for planting of vegetable and flower garden, 12:30 p.m. and a campus reception in Millberry Union Lounge with free wine, food and live music, 3:30-5:30 p.m.

Information tables on campus will sign up individuals for the day's activities, and distribute Leake Day programs. Information on future projects of the Campus Beautification Committee also will be available. Leake Day is part of UCSF's on-going beautification plan, which includes the recent planting of 12 trees on the south side of Parnassus in front of buildings at the western end of the campus.

Bruce M. Alberts, professor of Biochemistry and Biophysics, has been elected to membership in the National Academy of Sciences. Earlier this year Alberts was appointed American Cancer Society Research Professor of Biochemistry, and in 1978 elected to the American Academy of Arts and Sciences.

Alberts has made major contributions to the understanding of the process by which a living cell copies its genetic material. Since coming to UCSF in 1976, he has headed a laboratory which has been studying the way various proteins are involved in replication of double-stranded DNA, the genetic material that contains much of the instructional information in living cells.

NEWS BRIEFS

A new "birthing room," for women who prefer an alternative birthing center, has just opened at 1515 Moffitt Hospital. It is furnished with antiques and is open to women enrolled in UCSF's Family Centered Birth Program. Mothers stay in the room during labor and for up to 24 hours after the birth. For further information contact Jess Leone, extension 4858 or 2450.

The Proctor Symposium on "The Clinical Management of Infectious Diseases of the Eye" will be held on Friday and Saturday, June 12 and 13 in Cole Hall.

The 1981 Elizabeth C. Proctor Lecture will be given by G. Richard O'Connor, director of the Proctor Foundation, on the first day of the symposium at 4:30 p.m. He will speak on "The Significance of Parasite Invasion and Hypersensitivity in the Pathogenesis of Toxoplasmic Retinochoroiditis."

The symposium will provide an overview of current specific medical and surgical management of infections of the eye, with emphasis on the practical application of the material presented. Subjects to be covered in depth by guest faculty and faculty of the Proctor Foundation will include: newer diagnostic procedures for ocular infections, newer antibiotics, keratoplasty infections of the cornea, and diagnostic and therapeutic vitrectomy in intraocular infections. For registration information call extension 2894 or 2483, program information extension 4251.

San Francisco Giants fans at UCSF are invited to see the Giants and St. Louis Cardinals game on Friday, June 19 at 7:35 p.m. at Candlestick Park. A section of box seats located near third base has been reserved for all fans from UCSF. Tickets are $5, a savings of $1 off the regular price. For further information contact Pat Duffy, extension 4318.

The Mailing Division is now offering a facsimile service that can transmit correspondence to and from all other UC campuses and affiliated locations. The new facsimile equipment, located in the incoming mail room, SB 26, uses the ATSS telephone system to transmit at the rate of two minutes per page.

All departments receiving incoming transmissions will be notified by the Mailing Division; the department has the option either to pick up the correspondence, have it read over the phone, or receive it in the campus mail. The Mailing Division handles all outgoing transmissions as well.

The new system reaches every UC campus, the Davis and Irvine Medical Centers, Lawrence Berkeley Lab, Los Alamos Scientific Lab, Lawrence Livermore Lab, UC offices in Sacramento and Washington, D.C., and the Agricultural Extension in San Joaquin Valley.

The facsimile equipment is on a six-month trial basis; at the present time there is no charge to departments for its use. For further information contact Jon Gledhill, Mailing Division manager, extension 1124.

High school and college students who are interested in learning more about the health care field are invited to participate in the 1981 Summer Student Volunteer Program, sponsored by Volunteer Services.

The program lasts nine weeks, from June 29 to August 30, and provides high school and college students exposure and practical experience in a health science setting. Students will have the opportunity to participate in various hospitals and clinic units and assist in direct patient services.

To be eligible, students must be 16 years of age or older and able to make a commitment to volunteer 12 hours per week on a regularly scheduled basis for the duration of the program. They must also be able to attend any necessary prerequisite orientation and training session.

Interested students should contact the Volunteer Services Department at extension 1196.

One hundred fifty-four students will receive MD degrees at the School of Medicine Commencement Exercises, Saturday, May 30 at 2 p.m. at Zellerbach Auditorium, UC-Berkeley. One hundred PhD and Masters degrees also will be awarded.

J. Englebert Dunphy will deliver the 1981 convocation entitled, "Make a Friend of Your Patient." Student speakers will be N. Clare Heriza and Monte Keen. Deans Julius Krevans and Lloyd Kozloff will present the students, and Chancellor Sooy will confer degrees.

The program also will include presentation of the prestigious gold-headed cane, a traditional honor originating in the 16th century London medical society, which is given to the graduate who best exemplifies the qualities of the ideal physician. This year, John R. Mitchell, '46 will present his own gold-headed cane to the winner.

The Kaiser Awards for Excellence in Teaching, established by the Henry J. Kaiser Foundation, will be presented to outstanding faculty members.

The UCSF Faculty Wives presented Graduate Division Dean Emeritus Harold Harper, now special assistant to the vice-chancellor, Academic Affairs, with a check for $8,000 for their Student Loan Fund, at their annual Meeting at University House. The check was presented by outgoing President Elizabeth Murphy. Nancy Kull, financial aid officer, Student Services, was the featured speaker; Mrs. David Saxon was the special guest.

The Faculty Wives have been donating to the fund since 1970. This latest donation brings their total contribution to $55,900.

In addition, newly elected officers were Ilse Steinbech, president; Donna Brandborg, president-elect; Anna Haase, vice president; Mickey Bender, recording secretary; Fran Trafton, corresponding secretary; Ann Alden, treasurer; and Mariann Boles, treasurer-elect.

The next blood donation day will be Monday, May 18. Donations will be accepted in the School of Nursing Mezzanine, 8 a.m. to 4 p.m., or Millberry Union lounge, 10 a.m. to 5:30 p.m. Appointments can be made in advance by calling extension 4013.

This is the second of three drives held annually. The first, held in February, netted 264 pints, a 5.5% increase over the previous drive.

The Associated Students of UCSF will sponsor a prize of a Sunday brunch for two at the Alta Mira Hotel, Sausalito. To be eligible, donors must drop their donation receipts in a box at either blood donation site.

KTVU-TV, Channel 20, Oakland, recently received a local Emmy award for a feature story on nine-year-old Timmy Evans, a UCSF kidney transplant patient of Oscar Salvatierra, associate professor of Surgery and Urology, and chief of the Transplant Service.

The KTVU story followed Timmy over a period of several months and included scenes at home with his family, visits to the UCSF Children's Renal Unit for dialysis, and interviews before and after his successful kidney transplant surgery, as well as footage of the surgery itself. Unfortunately, Timmy suffered from several congenital abnormalities, and certain conditions which could not be controlled brought about his death last December.

Presented by the Northern California Chapter of the National Academy of Television Arts and Sciences, the Emmy was for "outstanding individual achievement, camera news/feature story." It was awarded to Willie Kee, cameraman.

The School of Dentistry is seeking applicants for a two-year Prosthodontic Residency Program.

The program will be equally divided between fixed and removable prosthetics and is designed to meet the requirements of the Council on Dental Education of the American Dental Association, and the American Board of Prosthodontics. A research commitment will be required of the student as part of the program.

Application deadline is June 1. For further information contact Thomas A. Curtis, extension 2098 or Ryle A. Radke, extension 3176. For applications contact Aurora Garabedian, Graduate Studies, S 630.

A 200-page public service directory summarizing UCSF's community outreach activities has been compiled by Public Service Programs and sent to various campus departments. Because there are only a limited number of copies available, anyone interested is urged to contact his or her dean, director or department chair.

The directory includes listings of educational or support services directed to individuals and groups off campus. Teaching and research in community settings and individual memberships on community boards and committees also are listed.
